

Trees Rx..... And Here Are The Doctors!

E. Thomas Smiley, Ph. D
in Plant Physiology & Soil Science from Michigan State University.

Tom joined Bartlett Tree Experts in 1988 as a plant pathologist, plant physiologist and soil scientist. His key areas of research and responsibility are soils, general arboriculture and tree risk management.

Beth Brantley, Ph.D.
in Plant Pathology from The Pennsylvania State University. She taught forestry and related courses at Penn State Mont Alto for 20 years.

Beth joined Bartlett Tree Experts in June 2019 as a technical support specialist. Her key areas of responsibility are general arboriculture and plant health care diagnostics and recommendations.

NJASLA Education Foundation
gratefully acknowledges their generous support for this
Continuing Education Webinar to:
Bartlett Tree Experts
for providing this Webinar and the guest speakers.
